                                                              Assignment No: 5
         #AIM:
         1. Logistic Regression
         2. Differentiate between Linear and Logistic Regression
         3. Sigmoid Function
         4. Types of LogisticRegression
         5. Confusion Matrix Evaluation Metrics
